When Sirens Sound

Guidelines for the Outdoor Early Warning System

The City of Wheat Ridge has activated our Early Warning Systems (EWS) sirens several times over the last two years, including several testing processes. When residents hear the sirens, they should follow the guidelines below.

- ❑ Turn on the radio to 850 KOA AM (the designated emergency broadcast station for the Denver area) or turn on your TV and find a news station for information about what is happening.
- ❑ Do NOT telephone the police or fire departments. This ties up the phone lines, making them unavailable for emergency calls.
- ❑ If residents have reason to believe the sirens are being activated for a tornado, take shelter immediately.
 - At home, take cover in the basement if one is available. If no basement is available, take shelter in a room in the center part of the house away from windows. Do NOT remain in a trailer or mobile home.
 - At work or school, go to the interior hallways on the lowest floor or to the designated shelter area away from windows.
- ❑ Continue to listen to the radio or television for developments on the emergency and for information on when it is safe to leave shelter.

Sirens are primarily used to warn residents who are **outdoors** when dangerous weather or a flash flood is approaching. The system can also be used to alert residents and motorists of chemical spills and other emergency situations occurring in the City. Often times in a situation such as this, the City web site will contain pertinent information.

First Annual

Wheat Ridge Child Safety Fair

On Saturday, April 30, 2011, the Wheat Ridge Police Department and a host of local partners held the first annual Wheat Ridge Child Safety Fair. In spite of the chilly and windy weather, the turn out for the event was impressive! More than 200 children and parents attended the fair and took advantage of the many free activities from face painting and cotton candy to a bouncy castle.

Exempla Lutheran Medical Center handed out free bicycle helmets; Wheat Ridge Cyclery employees stayed busy performing free bike check ups. Certified car seat inspection technicians checked and replaced unsafe car seats with the new child seats which were obtained through a grant from CDOT.

In addition to all the fun, two bicycles were donated by the Wheat Ridge FOP to be given away to a lucky girl and boy. Thirty one girls and forty two boys registered in the drawing for one of the bicycles. The winners, James Kindschua, with CSO Supervisor Mary McKenna, and Cathlyn Salazar were thrilled with their prize!

The willingness of so many community stakeholders to come together and make this event successful speaks volumes about their commitment to the safety of our children in Wheat Ridge," said Police Chief Dan Brennan. "We have already started planning for next year's event. Our goal is to

make this an annual fair.”

Many thanks to the local partners who contributed to the success of the 1st Annual Wheat Ridge Child Safety Fair:

- Wheat Ridge Police Department
- Wheat Ridge Fire Department
- Wheat Ridge 2020
- Wheat Ridge Cyclery
- Wheat Ridge FOP lodge 24
- Colorado Department of Transportation
- 1st Bank of Wheat Ridge
- Exempla Lutheran Medical Center
- Hispanidad
- Servicios de la Raza
- Wheat Ridge Middle School

The New Face of Code Enforcement

Community Development Director Ken Johnstone and Police Chief Dan Brennan examined the feasibility of moving the Property Inspector position to the Police Department’s Community Services Team. Staff members from both

departments worked together to determine the impact of the increased duties and what additional training and certifications would be necessary to complete the transfer. The intent of the change is to provide a single public face for the City’s code enforcement activities and to enhance customer service.
